## Made simple

### No Broker? No Problem!

At Rudy Rack our logistics company can act as your broker through Canadian customs. With one form, and a signature your racking will be well on its way to your door.

### How Does 10% Sound?

We are finding that generally the cost of shipping to Canada is still around 10% of the total cost of your order. Ask us about any discounts you may be eligible for to reduce this cost further.

The pricing throughout the catalog is in US dollars.
