# 3-Bike Highlighter

1. **Insert the floor section into the center legs with the tabs facing up, then insert the 4th tier section into the center legs. Adjust to desired spacing and secure using 5/16" x 1/2" bolts.**
2. Insert the (2) Single Legs into the other side of the Center Section. Tighten with (2) 5/16" x 1/2" Bolts.
3. Insert the Top Section into the (2) Single Legs. The End Trays should be facing the same way. Tighten with (2) 5/16" x 1/2" Bolts at your desired spacing.
4. Attach the (3) Stanchions onto the (3) sections using (2) 5/16" x 1/2" Bolts and (2) 5/16" Washers for each Stanchion.
5. Insert (1) Tray Catch to the exposed holes in the front of each stanchion. Adjust the catch to the desired wheel base. Tighten using (1) 1/4" x 3/8" Setscrews.
6. Insert the provided 1" and 1/2" Black Plugs into the exposed ends to give the Highlighter a finished look.
