SUPER LINE UP ASSEMBLY INSTRUCTIONS
PG. 1
		HARDWARE:
1.	STANCHION	1/4" X 1 1/2" BOLTS
		1" BLACK PLUGS
		1/4" STOPNUTS
		1/2" X 1 1/2" BLACK PLUGS

2.	RAIL

**STEP 1.**
Locate the two Rails. Place them upside down on the floor and insert the 1" black plugs into the feet, as shown in Diagram 1.
*The number of feet will vary based on the size of the rack.
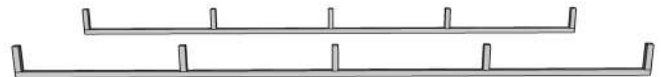

STEP 2
Flip the rails and stand them on their feet. Place the rails about 26" apart, as shown in Diagram 2. Use a Stanchion as a guide.

26 1/4"

STEP 3
Now take a Stanchion and insert the 1/2" X 1 1/2" Plugs into the front and back of each. Slide the front of the stanchion over the Rail, as shown in Diagram 3.
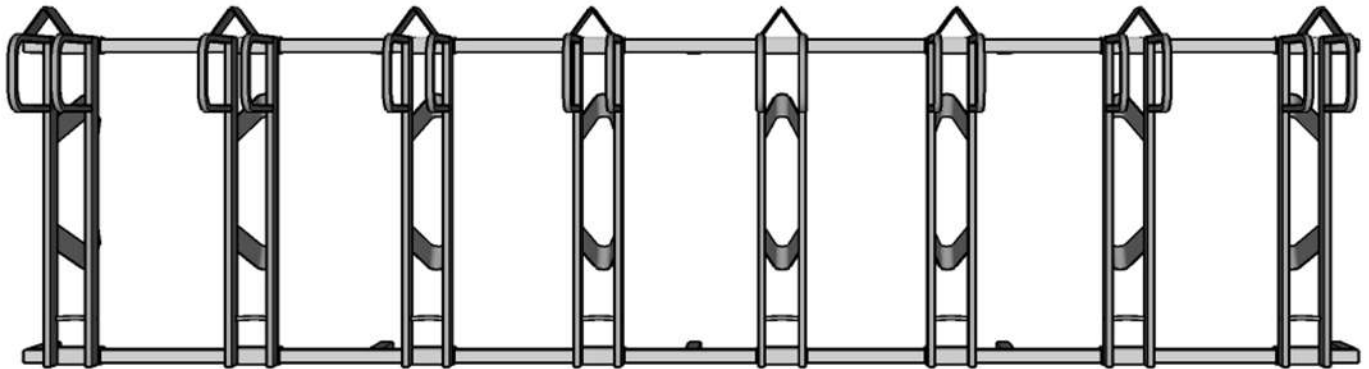

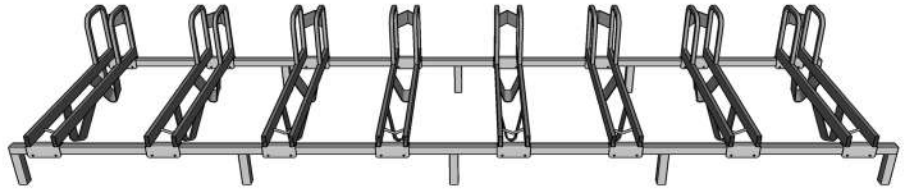

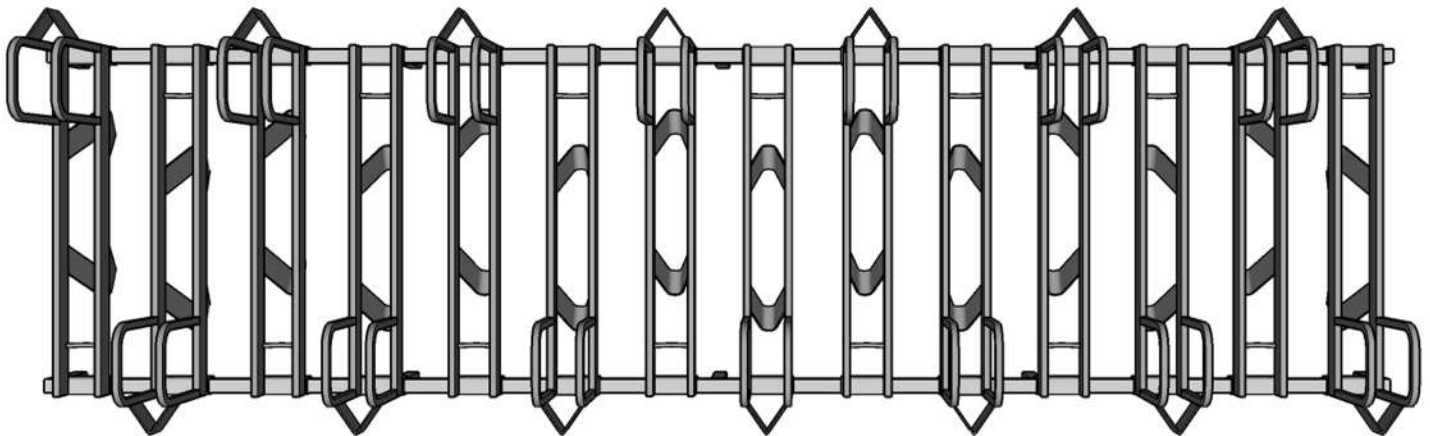

STEP 4

Add the remaining Stanchins by repeating Step 3. Once they are spaced as desired, secure into place using the 1/4" x 1-1/2" Bolts and 1/4" Stopnuts.

*WALL FORMAT VERSION

6-bike SPACING: 9" between stanchions
7-bike SPACING: 9 1/2" between stanchions
8-bike SPACING: 10 1/2" between stanchions

*ISLAND FORMAT VERSION

10-bike SPACING: 3 1/2" between stanchions
12-bike SPACING: 3 1/4" between stanchions
14-bike SPACING: 3 3/4" between stanchions
